Why a Calendar Beats Reacting

Reactive releases almost always arrive late. A calendar means data, photos and spokespeople are ready **before** journalists start looking.

Q1 · Jan–Mar

- Chinese New Year (6–7 Feb 2027): stories on SME festive demand
- Ramadan & Hari Raya (est. Feb–Mar 2027): prepare releases well ahead
- Annual results & 2027 targets: release your 2026 milestones

Q2 · Apr–Jun

- Mid-year: customer data or internal research
- Hiring and expansion announcements
- Launch new product lines ahead of mid-year sales

VRITIMES

Q3 · Jul–Sep

- DOSM's MSME release (late July): comment with your own data
- 31 Aug Merdeka & 16 Sep Malaysia Day: community programmes, not just discounts
- Partnership & funding announcements

Q4 · Oct–Dec

- Budget 2028 tabling (Oct): react with SME-relevant commentary
- Deepavali, 11.11 & 12.12: release promos before peak days
- Year in review & 2028 outlook

The T-14 to T+3 Rule

A working timeline for every moment:

timeline

T-14 research & data · T-7 final release + photos · T-3 pitch journalists · Day 0 publish & share · T+3 coverage recap

VRITIMES

39.7%

MSME share of GDP in 2025

DOSM's MSME data lands every year. Plan a reaction release with your own numbers and you have a ready news hook.
