Why a Calendar Beats Reacting

Reactive releases almost always arrive late. A calendar means data, photos and spokespeople are ready **before** reporters start looking.

Q1 · Jan–Mar

- Annual results & 2027 targets: release your 2026 milestones
- Holy Week (25–26 Mar 2027): newsrooms slow, publish before
- Summer travel & graduation season stories

Q2 · Apr–Jun

- Back-to-school & rainy season preparedness angles
- 12 Jun Independence Day: community and local-pride stories
- Mid-year data from your own customers

Q3 · Jul–Sep

- MSME Development Month (July): MSME stories have a news peg
- National Heroes Day (30 Aug 2027): frontliners & employee stories
- "Ber" months start: plan Christmas campaigns now

Q4 · Oct–Dec

- 11.11 & 12.12: release promos before peak days
- Bonifacio Day (30 Nov) & Christmas slowdown: publish early
- Year in review & 2028 outlook

The T-14 to T+3 Rule

A working timeline for every moment:

timeline

T-14 research & data · T-7 final release + photos · T-3 pitch reporters · Day 0 publish & share · T+3 coverage recap

VRITIMES

1.25M

business enterprises in the Philippines (2023)

99.6% are MSMEs. Every one has at least one moment a year worth announcing.
